

# Girls' Soccer: CIF Champs

Mariela Sanjines

After a few rough seasons the girls have been training hard since coming back from covid and working their way through the years for this moment. The coaches, Willy, Alyssa, and coach Earlin have been supporting these girls and have had faith in them

since day one. They coach with passion and it shows on the field. They've created a sisterhood and a welcoming community year after year. They work hard to fundraise for new uniforms and new equipment. They train from the get-go. Through hot summer practices to early chilly mornings or even rainy days. Always practicing ,always improving. They have amazing technique and teamwork and it's no wonder how they ran their way to finals. Their hard work and dedication paid off when they made it to the playoffs/ finals, taking a bus to San Diego. Brisa Medina scored the winning goal, taking home the first CIF win in over 15 years!. The crowd sitting on the rainy bleachers cheering the girls to the very end, anticipating the win were overjoyed. After this huge achievement we are expecting a bright future for the team and all its players.

## Medical Pathway / Alyssa Muldong

This issue's Pathways spotlight shines on our own 4-Year Medical pathway here at Magnolia High School. The Medical Pathway, also known as the Patient Care Pathway consists of learning different aspects of Medical careers. Students that take part in this hands-on pathway will have the opportunity to learn the foundations of the healthcare industry. Such examples that have been taught over the years are the expansion of medical terminology, notice vital signs, perform first aid, and understand infection control. Through the given electives, students study the Anatomy and Physiology of the human body, while gathering insights of cultural aspects of healthcare, and much more to offer. Students that are dedicated to this pathway will also be provided with real world example labs with the proper resources and guidance. The Medical class electives can be very beneficial as their classes are considered as an UC "D" Science credited for A-G requirements for high school and UC's. This also leads the students to become prepared to enter the Capstone Medical Assistant. All students will

learn how to perform EKG's specimen (electrocardiogram) collection including venous blood and capillary blood samples. MA's will also learn how to prepare and administer injections while assisting with a variety of medical exams including routine surgery. MA's will become American Heart Association CPR certified before the students leave from high school. MA students will become job ready before they graduate.

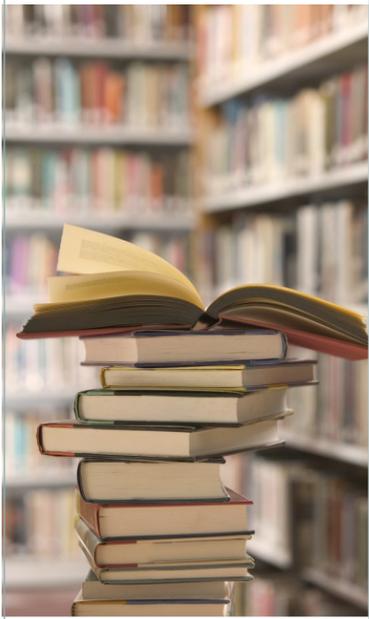

For those that are very passionate in the Medical field, there will be internship opportunities that can take place during your high school years with the needed requirements being met. If this pathway sounds fun and exciting, then this pathway is for you! For those that are interested, email Mrs. Foster, [foster\\_d@auhsd.us](mailto:foster_d@auhsd.us) for more details.

# Magnolia Capstone Portfolios

are due

**May 2**

## Showcases for Seniors

are May 8, 15, 17

## IMPORTANT UPCOMING DATES

### April

- 13 Spring Show
- 22 STEAMAPALOOZA!
- 26 Assembling Capstone Portfolios in classes (Day One)
- 27 Assembling Capstone Portfolios in classes (Day Two)
- 29 Prom

### May

- 4 Senior Awards Night
- 8, 15, 17 Capstone Showcase for Seniors
- 23 Graduation Rehearsal – Senior Barbecue
- 24 Graduation/ Min Day
- 25 Now what?

## HIP-HOP DANCE CREW / LIANA SANJINES

Magnolia High School’s Hip-Hop Dance Crew has been thriving this year, as they dance their way through events such as the Homecoming assembly, Winter assembly, and International. Co-Captain Tatyana Briceno shares her passion for dance along with how the club has helped her build connections with those who share the same interests as her. She tells us how the club has been

going so far, “The club has been going well, especially for the new members who joined who were shy in the beginning. Being in the club has made them open up more to us and dance. Being a part of the club has created great memories, friendships, and developed

character within everyone.”

Hip-Hop Dance Crew is one of the many clubs we have in Magnolia’s Performing Arts with more than 9 members in HHDC (hip-hop dance crew). Tatyana also shares how often they collaborate and choreograph routines with Latin Dance Club, which has 7 members (totaling up to about 16 dance members in some of their performances).

K-Pop Dance Crew is another Performing Art club amongst many. Captain Leslie Figureoa, shares how fun her experience has been, being both a member and captain of the club. Member Melina Hernandez, also gave some insight regarding how they feel about the club, and how they think this year has been going for them. She says, “KDC is such a fun environment where you really feel comfortable with the people you’re practicing with, you don’t have to have a big knowledge of kpop to feel like you belong. Everyone works together as a team to make sure the performanc-

es go over smoothly. The leader pays a big part of what we do as a group and is always making sure we’re on task! Overall it’s a fun place and group of people who really do have the same goal.”

All the members of K-pop Dance Crew are very dedicated and practice every Monday, Wednesday and Friday to ace their performances for Magnolia’s Assemblies. They constantly work hard to make their dances flawless and take a lot of inspiration from K-Pop groups such as, Itzy, Stray Kids, Girls Generation, New Jeans etc. This club has definitely gained a lot of admiration from our student body, especially in assemblies and events!

Top 10 K-Pop groups for beginners:

1. BTS
2. Blackpink
3. EXI
4. TWICE
5. Big Bang
6. Girls Generation
7. Seventeen
8. Red Velvet
9. Ateez
10. Dreamcatcher

Out of all the remarkable teachers who've had the pleasure of teaching here, in this beloved High School, there's one individual that must be recognized in high regard. And that of course is the one and

her thoughts and reflections.

Ms. Waxman explained how she enjoyed working with all her kids, and she loved getting to know each and every one of them. Spending quality time with many, al-

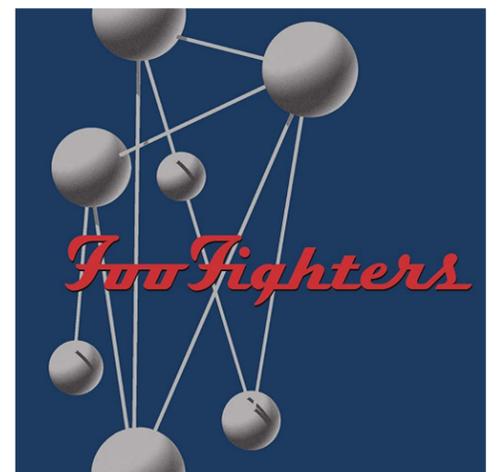

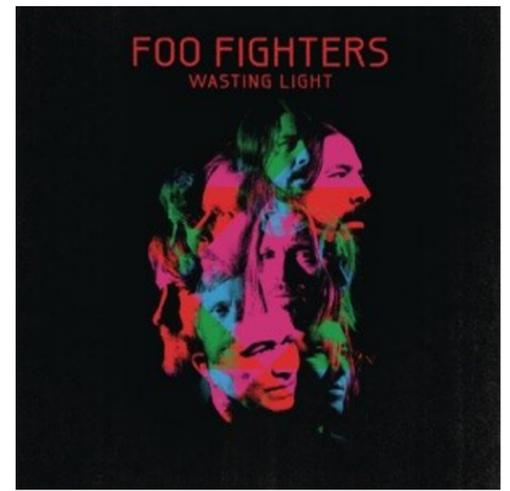

only, Michelle Waxman. The profound English teacher of room 104, who absolutely shines in every lesson she teaches to her cherished students. However, after thirty three years of teaching, Mrs. Waxman has finally decided to close her classroom doors one last time, retiring by the end of the year. And although many faculty members will find themselves missing the graceful women, who made thousands of kids enjoy the subject of English, her legacy can live on in the minds of many students who shared the pleasure of having her class.

As for me, oh man, being in her class was a totally different experience. She taught me so much, and not just about the genre of literature, but also how we can enjoy ourselves and those around us. We were all one small family, period 6 (Class of 2021-2022). One that many of us we'll hopefully never forget. Recently I had the opportunity to interview the infamous Waxman, and she shared some of

lowed in those fifty seven minutes. She continuously went into detail about her most favorable year, the beginning of her career. In which, she was "part of the school spirit" otherwise referred to as ASB. And even though she loves all her years of teaching, one thing Ms. Waxman wishes is that she took part in a club. Other than that, she "has no regrets with teaching here."

Ms. Waxman was inspired the most by her father (who also happened to teach English) who foretold her his stories and work life and influenced the way she taught many of her students. Suffice to say, we're all going to miss the fun-loving and precarious woman named Michelle Waxman. Mrs. Waxman later exclaimed how she's "proud to be a sentinel" and we are too.

Thank you for all your hard work you've put into this school. We're truly lucky to have had you within our community, and I'm sure you feel the same way. Enjoy your retirement and your beautiful future!

## Anaheim AVE Rewinds! / Alyssa Muldong

Hey, Sentinels! As we are into the 4th quarter of the school year, the city of Anaheim is quickly expanding their resources and opportunities to all youth, especially towards high school students. The City of Anaheim, AUHSD, OCAPICA, and universities such as CSUF have partnered up to establish a youth Anti-Vaping Endeavor research paid internship known as Anaheim AVE!

Anaheim AVE was founded by OCAPICA in the year of 2020, the time of period where all events were held virtually. Originally, only two students from each high school within the AUHSD were selected to represent their schools. The mission of Anaheim AVE is to build up student leaders in their communities by educating themselves (inward focus), educating the public (outward focus), and educating decision-makers (upward focus). A special mention of the two students that were selected to represent Magnolia High School was **Jahkoyah Boyce** and **Alyssa Muldong** who are still current student researchers. As the first cohort was finalized with students that consisted from different schools, as youth advocates, they had captured real-world data through

a survey with students' thoughts on toxic addictions then subsequently used the given info to continuously find different ideas and methods to display our information along with spreading awareness. Now, Anaheim AVE has become a larger supporting community and has gained recognition by people such as by Al Jabbar, a member of the AUHSD Board of Trustees and collaborated with other youth-led organizations. Through consistent work over the years, the Anaheim AVE program REWINDS to bring in more passionate students into the crew! A special shoutout to **Karime Frias** for being selected as one of the new members that took on this opportunity! This program is expanding overtime, so what is Anaheim AVE doing now?

Currently, Anaheim AVE is going to be hosting a community event known as Breathe Healthy, Live Mentally at Gilbert High School on **April 5th, 2023 starting at 4pm**. This event will be focusing on anti-vaping and mental health. There will be presentations created by Anaheim AVE students, a music performance, photo booth, free dinner, in addition to a resource fair, and more! Students, Staff, and families are invited to this informational night. Our very own AUHSD students will be hosting throughout the event, so be sure to make a reservation and support your peers along with gaining new knowledge from our very own youth researchers! For more information, follow us on @ocapicaanaheimave!

Youth Researchers selected from Magnolia High School:

Jahkoyah Boyce (12th): Spring 2020 - Spring 2021

Jahkoy Boyce (11th): Fall 2022 - Spring 2023

Karime Frias (11th): Fall 2022 - Present

Alyssa Muldong (11th): Spring 2020 - Present

Staff Members:

Emily Park – Program Coordinator

Jonathan Garzon – UCI Senior Health Educator

Dr. Sora Tanjasiri – UCI Professor

Dr. Joshua Yang – CSUF Professor

## AUHSD FILM ACADEMY / Liana Sanjines

The AUHSD Film Academy is an AIME program offered by our school district. Students from every high school come together to create films and learn about cinematography. The academy focuses on teaching students how to work different aspects of the film process in order to create documentaries, short films, music videos etc. They help students embrace their creativity on each film they create, and the process of bringing an idea to life. The summer program is about 4 weeks long, held at Katella High School where the programs advisors, April Monera, Jeff Numainville, Nicole Montoy, and Adrian Olmedo teach students skills like how to operate a camera, how to use editing softwares such as Adobe Premiere Pro, and how to work lights and microphones when interviewing someone. Students also meet many students from across the district who share the same passion for filmmaking. They build connections with students, advisors, and go to events such as the Newport Film Festival, a Warner Bros tour, Chapman tour, and a USC tour. Students get to experience what it's like being a filmmaker in an environment where the advisors encourage them to grow and learn as individuals. They get to ask questions to Chapman and USC film students and get a feel for what it's like to study there. This opportunity is offered to students in grades 9-11 in all AUHSD high schools. A \$599 scholarship is also offered within the completion of the program!

On March 10, 2023, Silicon Valley Bank (the 16th largest bank in the U.S.) collapsed because of lousy investments in stocks and bonds (\$209 billion in assets & \$175 billion in deposits), this spooked depositors which caused a run on the bank with depositors attempting to withdraw all their money from their personal and business accounts get closed/shut down by the Department of Treasury. This became the second-largest bank run in United States history, since the 2008 financial crisis. Due to the spook, customers

withdrew over \$42 billion within 10 hours of the bank run, causing the bank to “run out of money”.

As the 10 hours of the bank run was occurring, the U.S. Department of Treasury seized the bank and closed the bank. Many account holders couldn't get hold of their money and the FDIC will only insure account holders up to \$250,000, however, those SVB customers have well over \$250,000 because their customers were small tech-start-ups, wealthy business owners, or big corporations. Due to this

### Performance of SVB Financial and the KBW Bank Index

Daily; March 8, 2013, to March 9, 2023

collapse, people are worried about a domino effect occurring with other banks collapsing due to panic and fear with negative fallouts occurring like First Republic Bank being under 60% pressure or PacWest down 40%.

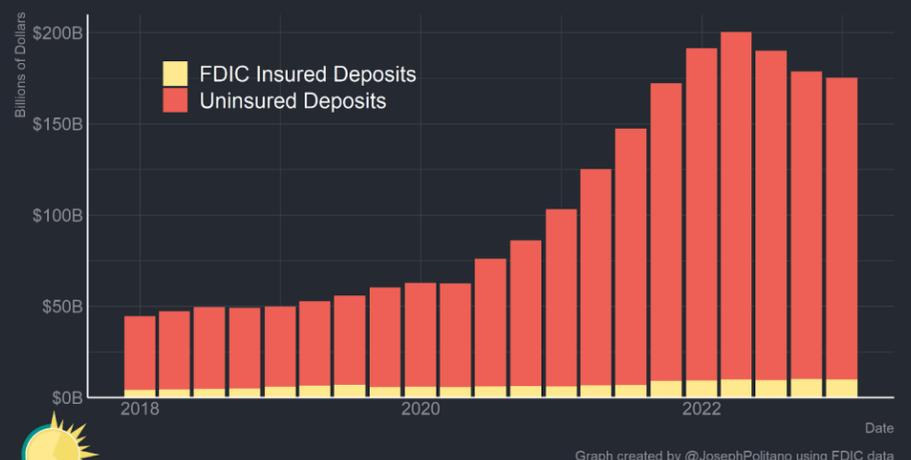

Many Government Officials suspect that SVB was given a bailout to avoid stress on the U.S. economy and a Government investigation is occurring as of right now to determine what went wrong within the bank and why did it fail. On Monday, March 13, account holders of Silicon Valley Bank will be able to access their money/deposits and accounts as directed by the U.S. Department of Treasury and the U.S. Government.

A same event occurred in Switzerland with the oldest and biggest bank, Credit Suisse. The collapse of the banking system with Credit Suisse was with the connection of now-bankrupt Greensill Capital and Bill Hwang's Archegos Capital Management including assets dropping to 8.5% as it made the equity of the shareholder worthless. It forced the Swiss Government to put the bank up for sale with the biggest competitor UBS (Union Bank of Switzerland) as they bought Credit Suisse for \$3.2 billion dollars.

If this trend continues with more banks collapsing, it can promote slow economic growth, lost trust in banks, and a decline in investing which possibly give a nudge for the stock markets to collapse.

### Silicon Valley Bank, Before The Run

SVB Saw Massive Deposit Growth During the Pandemic—And Most of It Was Uninsured

## EARTHQUAKE IN TURKEY / Hadia Zakir

On the 6th of February 2023, at 04:17 TRT, a massive earthquake hit Turkey, causing widespread destruction and loss of life. The earthquake, which measured 7.5 on the Richter scale, struck in the province of Elazig, located in the eastern part of the country. The earthquake was felt across a wide area, including in neighboring countries such as Syria. It caused buildings to collapse, roads to be destroyed, and communication lines to be cut off. In the immediate aftermath of the earthquake, there were reports of people trapped in collapsed buildings, and rescue workers rushed to the scene to try to save lives. The earthquake also caused significant damage to infrastructure, including power and water supplies. Hospitals in the affected areas were quickly overwhelmed with injured people, and many had to be evacuated to other areas for treatment. The Turkish government responded quickly to the disaster, mobilizing emergency services and deploying the military to assist with rescue and recovery efforts. The international community also rallied to provide aid and support, with many countries offering assistance in the form of money, equipment, and personnel. Donations have been pouring in to help those affected by the disaster, and volunteers have been working tirelessly to provide assistance.

While the earthquake has been a tragic event, it has also brought people together and highlighted the strength and resilience of the Turkish people. The earthquake was a stark reminder of the power and unpredictability of nature, and it emphasized the importance of being prepared for such disasters. In the aftermath of the earthquake, there were calls for better building standards and improved emergency preparedness measures, including early warning systems and evacuation plans. It is important that as a community, we should continue to offer our support and assistance to those affected by the earthquake. We

should also take the lessons learned from this disaster and use them to prepare for future events. By working together and being prepared, we can ensure that we are better equipped to respond to natural disasters and protect our communities.

### THE CAPSTONE IS HERE

By now, all teachers should have had conversations about the Capstone Portfolio with their students. This project seeks to improve our education by creating more opportunities for us to develop our skills in the 5 Cs, to utilize our skills learned in classes as we apply them in real world situations, and to give us a chance to develop our voice and agency by presenting us with real challenges facing our generation.

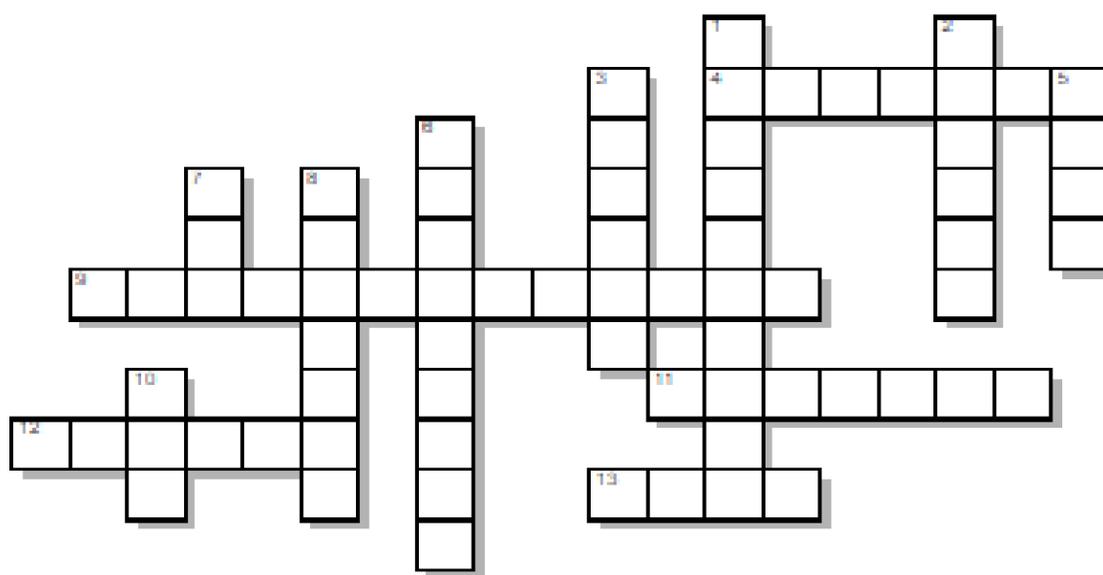

On April 26 and 27, every teacher in every class will assist students in compiling their Capstone Portfolios. Students will tell the story of who they are becoming (or for seniors, who they have become) and then upload projects, videos, photos, basically anything that illustrates their abilities to operate in 21st century society. Students will select assignments, but also extra-curricular accomplishments to show what they're capable of. On May 4 and 11, teachers will work in teams to score these portfolios for grades 9-11. These scores will be entered in *all classes* but it is up to each teacher to decide how many points the Capstone will be worth.

Seniors will do a Capstone Showcase, where they will present (in a manner of their choosing) their Capstone to a panel of teachers, staff members, and parents. These Showcases will take place on May 8, 15, and 17.

### STUDENT POETRY / LETICIA ALVARADO-FRANCO

**Keys**

I was a cacophony of notes  
 Until you carried the keys.  
 You carried those keys as you did me,  
 Your hands in themselves a love dream.  
 Love dream, you played in perfect harmony.  
 Harmonious, trembling right before me,  
 Sustaining the keys all the while  
 I peered over your shoulder,  
 Beaming with a smile.  
 Fingers in sync,  
 We heard those keys clink.  
 I refused right then to speak or blink  
 For, of the melodies your hands comprised,  
 The best was right before my eyes.
